¹These totals do not include duplicate cases as originally reported in the Department of Justice, Criminal Justice Statistics Center, MACR data, and as of 2006 the counts for all the years reflect this change.

²These data represent a DMV master file count of the number of DUI abstracts (data received from the courts), by year of violation, minus duplicates. Each year, the DUI conviction totals are updated to include the amended and new abstracts for current and previous years. These additions are also reflected in changes for the percent convicted. These totals do not include conviction abstracts not yet received. Thus, for the most recent years, these figures will underestimate the final conviction totals.

³These figures include overlap with drugs. That is, drugs are also involved in some of these cases.

⁴These figures include overlap with alcohol. That is, alcohol is also involved in some of these cases.

Beginning with the 2007 DUI-MIS report, reporting of drug-involved fatalities is included.
