# APPLICATION REQUIREMENTS FOR VEHICLE MANUFACTURER LICENSE

## PURPOSE

The purpose of this pamphlet is to assist the prospective manufacturer by describing the requirements to obtain a vehicle manufacturer license from the Department of Motor Vehicles (DMV).

## WHAT IS A MANUFACTURER?

A “vehicle manufacturer” is any person who produces from raw materials or new basic components a vehicle of a type subject to registration under the California Vehicle Code (CVC) or off highway motorcycles subject to identification under CVC or who permanently alters new commercial vehicles by conversion into housecars. (CVC §§ 672 and 11700 et seq.)

## BACKGROUND INVESTIGATION

A background investigation is conducted on all applicants. Failure to disclose convictions or providing incorrect information on the application may result in the refusal or denial of your license. The department may refuse to issue a license to any applicant who has been convicted of a crime or committed any act or engaged in any conduct involving moral turpitude which is substantially related to the qualifications or duties of the licensed activity. A conviction based on plea of nolo contendere is a conviction within the meaning of this section. CVC §§11703, 11703(c), 11705(a)(1). Persons previously working under a license issued by DMV, which was revoked or suspended for cause may also be denied a license. In addition, the California Code of Regulations (CCR) and other sections of the CVC provide guidelines used by the department in determining whether a license should be issued. (CCR, Title 13, Chapter 1.)
